

**Kelly “Grant” Smith**  
**Middle and High School Youth Director**

I’m originally from Burlington, North Carolina and I work full-time as a Chief Marine Science Technician for the U.S. Coast Guard. I enjoy hiking, camping, and woodworking. I’ve been working with kids for over ten years. In addition to leading middle and high school Sunday school and youth group, I also have experience volunteering as a summer camp instructor and scout leader.

I was fortunate to have many individuals in my life that mentored and guided me through all aspects of life, including how to be a follower of Jesus. I believe it is very important to carry on their good works and equip our youth with strong Christians roots. I love working with these unique young men and women and they bring great joy to my life.

The people at Grace on Main initially brought my family to the church and they continue to be what I love about the church. The people at Grace on Main have a great love for Jesus and I have come to know them as family.
